

THE POPE

And His Relations With the French Republic.

APPOINTMENT OF MONS. FUGET

The Pope Likely to Feel Compelled to Issue a Protest on Account of French Opposition to Church Associations—Assumptionists to be Thrown Over.

NEW YORK, Nov. 27.—A dispatch to the Herald from Rome says: The chief preoccupation at the Vatican at the present moment is the question of the relations with France. At the Apostolic palace there is a firm belief that the French chamber will maintain the embassy to the Holy See, for it is to the interest of France to do so, but there is much anxiety in regard to other matters.

"You see to what we have come," said a prelate to one who is in touch with the Vatican and expresses its anxieties.

"The budget committee presented for the suppression of seven bishoprics and the salaries of 700 vicars.

"The government is preparing a bill directed against associations, the objective of which is especially the religious congregation.

"It has adopted a bill almost entirely suppressing free secondary education inasmuch as it compels officials of state to pass at least three months in official secondary schools.

"Since the time of Jules Ferry there has not been such an outbreak of hostility to the church.

"At the next consistory the pope will preconcise a certain number of French bishops. One nomination which is of importance is announced as certain is that of Monsignor Furet at Rouen.

Monsignor Furet is one of the most respected men in France. Certain papers have even asserted that he is affiliated to free masonry. His promotion to the See of Rouen accepted by the Holy See is a reward of his devotion to the republic.

Monsignor Furet's secretary is Mgr. Puyot, who was for a long time superior at Saint Louis de France at Rome. There is much emotion at the Vatican caused by the turn which things have taken in France. As regards the assumptionists you may take it as certain that the Pope will throw them overboard, though making a stand. But what especially disturbs the Vatican is the bill relating to associations. It is beyond doubt that if a Kulturkampf is not started in regard to all religious orders the pope considers himself forced to modify his attitude toward the republic.

Everyone knows that the Francophile views of the Holy Father have already aroused strong opposition in the ranks of the sacred college. It is now asserted that as a reply to the war declared against religious orders the pope will be compelled to issue a public protest and there is reason for supposing that this protest will mark the end not of diplomatic relations between France and the Vatican, which will assuredly be kept up whatever may happen, but of the sympathy of Leo XIII for France.

STRONG OPPOSITION

To the Seating of Representative Roberts, of Utah—He is Said to Have Some Strong Supporters—A Precedent May be Established.

NEW YORK, Nov. 27.—A dispatch to the Herald from Washington says: Though comparatively few of the representatives elect have yet arrived in Washington, expressions of those who are here make it very apparent there will be a large majority of the members of the house opposed to allowing Brigham H. Roberts, of Utah, to sit with them. Interviews with those who have arrived lead irresistibly to the conclusion that either Mr. Roberts will not be allowed to take his seat at all or that he will be expelled from it after the house has had the report of a committee.

Mr. Roberts will not be without some supporters on the floor. The technical defence which he sets up meets the approval of some of the members and he will not be without champions able and ready to make a strong fight in his behalf. The proceedings over his case bid fair to overshadow in interest the

Foul Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

The disease is in the blood and all the sprays, washes and inhaled mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. R. P. McAllister, of Harrodsburg, Ky., writes: "I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaled remedies. I advised all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

"Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases which other remedies have no effect whatever upon. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.

S.S.S. For the Blood is Purely Vegetable, and is the only blood remedy guaranteed to contain no dangerous minerals.

Books mailed free by Swift Specific Company, Atlanta, Georgia.

proposed financial legislation, the question relating to the newly acquired territory of the United States and every other matter that will come before the house at the beginning of the session. Just what the character of those proceedings will be no one at present knows.

Whether or not Mr. Roberts will be prevented from taking his seat at all when the other members are sworn in will depend largely upon the action of Mr. Henderson, as speaker. Mr. Henderson has not yet indicated what course he will pursue. The house has from time to time refused to allow men to be sworn in when there were conflicting credentials, but there has never been a case in which there was a refusal to administer the oath to a man who presented a certificate of election in due form and absolutely uncontested by a rival applicant for the seat.

GREAT BRITAIN

Gives the United States Official Notification That a State of War Exists Between That Government and Two South African Republics.

WASHINGTON, Nov. 27.—The British ambassador, Lord Pauncefoot, has informed the secretary of state that in view of a doubt which appeared to exist whether her majesty's government recognize that the hostilities now in course of progress in South Africa constitute a state of war between Great Britain and the two South African republics, he has been directed by the Marquis of Salisbury to inform the secretary of state as an act of courtesy that the South African republic and the Orange Free State having declared war against her majesty, the queen, and having invaded the British colonies of the Cape and Natal, a state of war has actually existed since the 11th of October between England and the South African republic and the Orange Free State.

This notice appears to be couched in similar terms to those addressed by the British government to the governments of continental Europe. It will probably not materially affect the United States except to enable the government to deal vigorously with any persons who attempt to recruit in the United States for either of the parties to the war, Boer or British.

Nothing has been heard from Mr. Macrum recently respecting the measure of success attending his efforts to care for the British interests in the two Dutch republics which were confided to him.

Hubert Taylor Appointed Receiver.

NEW YORK, Nov. 27.—Justice Bookstaver, in special term of the supreme court to-day signed thirty-six warrants of attachment against William F. Miller and the "Franklin syndicate," of Brooklyn. These attachments are merely the forerunners of over 100,000 attachments which will be applied for as soon as the papers can be prepared. The amounts in the cases in which attachments were granted range from \$10 to \$350, the total being \$4,470. The majority of the plaintiffs are women.

Judge Wilmet M. Smith, of the supreme court, Brooklyn, to-day appointed Hubert G. Taylor, a former city receiver for the "Franklin syndicate."

Trainmen Headquarters at Cleveland.

CLEVELAND, O., Nov. 27.—The officials and staff of Brotherhood of Railway Trainmen have arrived here from Peoria, Ill., and established the headquarters of the organization in the American Trust building. This step was decided upon at the annual convention of the order about three months ago. A movement has been started to move the headquarters of the Locomotive Firemen's organization to this city. This would concentrate the heads of all of the more important railway orders here. The Brotherhood of Locomotive Engineers have had their headquarters in Cleveland for many years.

Newark Won the Race to Manila.

WASHINGTON, Nov. 27.—The Newark, Captain McCalla, has won the race to Manila, a cablegram received at the navy department to-day announcing her arrival there on Saturday. The Brooklyn is now hastening from Aden to Colombo, closely followed by the New Orleans, which has been steadily gaining on her bigger competitor.

Large Purchase of Timber Land.

TACOMA, Wash., Nov. 27.—The purchase of large tracts of forest by eastern lumbermen has caused a sharp advance in the prices of both logs and standing timber. Stumpage prices have risen within the past thirty days from 10 to 20 cents, according to the accessibility of the timber belts.

Large Lease of Ore Lands.

PHILADELPHIA, Pa., Nov. 27.—Ten thousand acres of magnetic iron ore in Ashe county, North Carolina, have been leased by the Pennsylvania Steel Company, and the Cambria Steel Company, of this city. Experts state that the finest deposits of magnetic ore in the southern state exists in that county. It is understood the companies will build a railroad at once. The Norfolk & Western, from Chesapeake, Va., and the Norfolk & Western, from Norfolk, Va., are to be extended from Wilkesbarre to Bristol.

Will Support Bankhead.

AUSTIN, Texas, Nov. 26.—Hon. John W. Bailey will support Bankhead, of Alabama, as long as that gentleman remains in the race for the minority leadership of the coming Congress. He is inclined to the belief that there will be a dead-lock between the candidates remaining if Bankhead withdraws, in which event he will propose Hon. S. W. T. Lanham, who is his second choice, believing that the gentleman from the Eighth Texas district will prove amenable to the different factions. Mr. Lanham and Mr. Bailey are very close together in their political views.

Dr. McGlynn Better.

NEWBURGH, N. Y., Nov. 27.—Dr. Edward McGlynn, rector of St. Mary's church, who has been ill for several days, is much better to-day. On Tuesday, Wednesday and Thursday, Dr. McGlynn's condition was somewhat serious. On Friday he began to get better and since then he has steadily improved. His physician says that all danger is now passed.

"I SUFFERED for months from sore throat. Electric Oil cured me in twenty-four hours." M. R. Gled, Hawesville, Ky.

Have You Tried the New Soap?

A DELIGHTFUL CHANGE FROM THE OLD.

Made from the Fresh Green Leaves of the Tasmanian Blue Gum Tree.

FRAGRANT, HEALING, CLEANSING BEAUTIFYING.

A Soap Manufactured Without Using Cheap Grease, Fats and Dangerous Alkali.

NATURE'S OWN SKIN PURIFIER.

The R. T. Booth Company Are AGAIN the First Ones to Discover.

They have found that the fresh green leaves of the Tasmanian Blue Gum Tree can be made into a toilet and skin soap and yet retain all its fragrant, healing and antiseptic qualities. These crushed green leaves have been for years the sole remedy used by the natives of that country for the cure of wounds, sores, ulcers, and they are now used in all the leading hospitals of London in the treatment of skin diseases.

HYOMEI ANTISEPTIC SKIN SOAP

Cures eczema, ulcers, blackheads, sunburn, chapped hands, sore lips or eyes, wounds, stings, and all cutaneous diseases.

The thought of using a soap which does not contain fats and grease is refreshing in itself, and when we know that this delightful toilet requisite is obtained entirely from Nature's own laboratory, there is not much doubt of its general use by the public. Hyomei Skin Soap sold by all druggists or sent by mail for 25c. Ask your druggist for a sample cake or send 2-cent stamp for postage and we will mail one to you.

THE R. T. BOOTH COMPANY, Ithaca, N. Y.

Amateur Photography. Lantern slides may be made by following these directions: Place the negative to be used in the printing frame, film upward (toward back of frame). On top of this place the fresh plate to be used, putting the two film slides together, and backing with a piece of black cloth for greater security. Then hold frame about eighteen or twenty inches from light, if ordinary gas is used, and turn up gas quickly. The frame should be filled in the dark room, or with the gas turned down to "the blue." Time of exposure will vary from two to twenty seconds, according to character of light, plate and negative used. Very intense negatives will need a longer exposure, as a matter of course, than thin ones—which will be all the better for exposing during a longer period than is absolutely necessary with a thin sheet of white tissue paper between the negative and the light—and a Welsbach lamp or electric light will act more quickly than an ordinary flame. After exposure the new plate (future lantern slide) should be developed, fixed and dried with more than ordinary care.

Winter landscape work is a most difficult branch of the art, says the Chicago Times-Herald. Last winter F. K. Lawrence and several other earnest and enthusiastic Chicago students succeeded in making some good pictures, and this year an attempt will be made to draw out good winter work from others. An exhibit of the best pictures thus secured will be afterward made, probably occupying the attention of the association members upon one of the regular Wednesday evenings. Winter photography at present divides honors with the making of lantern slides in the affections and attention of Chicago amateur photographers. The making of slides is not regarded as one of the highest or most artistic branches of photography, but a good slide must be exceedingly sharp and clear, as well as endowed with very good technique in other particulars, and because of the difficulty of making good slides, success is looked upon with a great deal of pleasure. The making up of the club box of lantern slides has reawakened interest in slidemaking in general, and good slides are being turned out in plenty at present.

The subject of the proper mounting and framing of photographs is also one which is being most earnestly discussed at present, the old stereotyping "card mount" being a thing of the past. Dark, artistic looking papers seem to bring out the black and white pictures most successfully, while tinted cardboards should have mounts or frames which best harmonize with their peculiar colorings. There is a strong feeling against using mats with framed photographs at present, the plain, dark frame of Finnish oak being held in better taste and more artistic by many people. Unframed photographs should be so mounted as to have the mounts supply the place of frames in some measure. Blue prints are naturally mounted upon white or blue paper as a rule, although certain shades of green, brown, bronze and steel gray look very well in connection with their brightness. As it is none too early to lay plans for Christmas photographs the subject of correct framing and mounting is especially timely just now. Fancy photographic operations with a Christmas future should be started as soon as possible. The wise amateur photographer considers this phase of the question all the year around.

THEY ARE CONVINCING.

Statement of a Neighbor is to be Believed.

Nothing So Convincing as What Persons Whom We Know and Respect, Say.

There is nothing so convincing as the statements of people whom we know and respect. If your neighbor tells you something, you know it is true; no neighbor will deceive another. So that is the way with Kid-ne-olds. The statements of people living right here in Wheeling are published so that you may ask these people and find out the great good Morrow's Kid-ne-olds are doing.

Mr. F. F. Smart, No. 1004 Thirteenth street, Parkersburg, a retired farmer, says: "I have been a sufferer from kidney disease for years. The secretions of the kidneys were very frequent and excessive, and contained a whitish sediment. I suffered constantly with pain across my back and with rheumatism in my limbs; the doctors gave me many things that would cure me and I tried a number of different remedies. I heard about Morrow's Kid-ne-olds being a cure cure for backache, and I decided to try them; in about a week after I began using Kid-ne-olds my urine was entirely gone and my urine restored to its normal condition, and the rheumatism greatly relieved. I cannot say too much in praise of Morrow's Kid-ne-olds, what they have done for me is truly wonderful."

Kid-ne-olds are put up in wooden boxes which contain enough for about two weeks' treatment and sell for fifty cents per box at Charles R. Goetze's drug store.

UNITED STATES

Declines to Accept Disposition of Samoan Islands, and Has Submitted a New Treaty to the Powers of Great Britain and Germany.

WASHINGTON, Nov. 27.—The United States has declined to accept the agreement as to the disposition of the Samoan Islands reached by Great Britain and Germany. It was possibly the leaking out of some information to this effect that gave rise to the report circulated in European capitals recently of the development of a serious hitch in the negotiations. As a matter of fact there is no serious hitch and the reasons which influenced the state department here in rejecting the British-German arrangement when it was submitted for approval related entirely to minor matters and touched rather upon the form than the substance of the arrangement. Having rejected the tentative treaty submitted by the other two powers, our government has in turn, and at the instance of the other parties prepared and submitted a draft of a treaty which it is hoped will be acceptable to all three powers. This is now before the foreign offices at London and Berlin for consideration, and it is confidently believed here that it will receive unanimous approval, not differing in principle, as already stated, from the original project.

DEWEY ACCEPTS

Invitation to Chicago—Names May 1, 1900, as the Date.

CHICAGO, Nov. 27.—Admiral Dewey's acceptance of the invitation to visit Chicago May 1 next, was received to-day. The admiral's letter to the committee follows:

"Office of the Admiral, 1747 Rhode Island Avenue, Washington, November 25, 1899.

"To Martin B. Madden, Esq., Vice Chairman of Committee, Chicago, Ill.

"DEAR SIR:—Acknowledging the receipt of your letter of the 23rd inst., asking that the date for my visit to Chicago be fixed for May 1, 1900, I have the honor to state that this date will be agreeable to me.

"Very truly yours, "GEORGE DEWEY."

Ranger to Sail.

CHICAGO, Nov. 26.—A special to the Record from San Francisco says: The United States ship Ranger, now lying at Mare Island, has been quietly fitted out for some long voyage, and rumors are current that she is bent on some secret mission. The officers of the warship refuse to discuss the nature of the voyage. Several six-inch guns are being placed in position on the vessel. The only thing the officers will admit is that the Ranger has been ordered to Panama and will sail early in December. Sealed instructions have been received from Washington, to be opened on arrival at Panama. It is believed by naval men here that the Ranger's ultimate destination is Manila and that she will be anchored for shore duty at some of the new ports recently taken from the rebels.

THE PATRIOTIC SPIRIT

Displayed by the Confederate Sons of Veterans.

From an address by F. H. McMaster, at a Charleston (S. C.) banquet: When Robert E. Lee surrendered at Appomattox the sovereign states died and the sovereign nation was born. He could then join Patrick Henry in the cry, uttered one hundred years before, "I am not a Virginian, I am an American!" but not until then. The question which had been referred to the god of war had been decided. Fealty to state ceased, and fealty to nation began. That was the oath our fathers took when they laid down their arms.

When asked what state he hailed from, Our sole reply shall be, He comes from Appomattox And its famous trees.

And our fathers, as wise men in all ages have done, when a question has been decided by a court of last resort, they abided by the decision. It is not only the part of wisdom, but the part of honor, for when men take an oath there should be no mental reservation. The keynote of southern civilization was to place honor above life, even among individuals. True men in every clime and nowhere more so than in the cultured, courtly, chivalric south of forty years ago, have always preferred death to dishonor. And when Lee surrendered there was the alternative, and those who swore with him, and were as noble as he, had no mental reservation, when they furled, forever, the stars and bars, and took their stand beneath the shadow of the stars and stripes. Then for the first time in the history of the United States was there

One flag, one land, one heart, one hand, One nation evermore.

Then he who would make you believe that the ragged, grizzled veterans of Lee and Johnson were not sincere, or that they would desire now to see our nation's flag dishonored, is a coward and a knave, and he would have you cast aspersions upon the honor of the immortal dead and the heroic living. And the greater standard he, who, present on that occasion, yet would teach disrespect for the flag, he swore to honor.

Therefore, as sons of Confederate veterans, and as we regard the honor of our fathers, it becomes us to live up to the promises they made, and with filial affection ever raise on high the flag either they or their fellows swore their allegiance to. If we would not write them down as rebels, liars, traitors, as men who shed their blood and gave up their lives for a sham we will dissimulate no allegiance save to "our country, our whole country, and nothing but our country."

"Thank God, I-I also—am an American."
